EXPERIENCE

Freelance Frontend Developer, 04/2023 - Current

Self-employed

- Coded using HTML, CSS, React and JavaScript to develop responsive features for both mobile and desktop platforms.
- Produced websites compatible with multiple browsers.
- Designed and updated layouts to meet usability and performance requirements.
- Created a completely static HTML, CSS, JavaScript and React single page application into an interactive user interface using animations, transitions and carousels

Developer Support, 01/2023 - Current

Volunteer Work

- Supported group discord members by reviewing codes and providing HTML, CSS, JavaScript and React best practices.
- Utilized debugging best practices using Google Chrome inspect element tooling.
- Helped in difficult programming concepts including responsive website development, CSS layout, Promises and API requests.
- Utilized Git version control and the GitHub interface to work and thrive in a virtual and collaborative team environment

PROJECTS

Twitter Clone | Website | <https://twitter-project-lovat.vercel.app/>

- Developed a social media app with real life twitter functionality using Next.js, Tailwind CSS, Redux and Firebase. It includes features such as Login In and Signing up, Posting Tweets, Commenting, Uploading Images, Deleting Tweets and Liking Tweets.

E-commerce App | Website | <https://e-commerce-library-beta.vercel.app/>

- Created a fully responsive online library app using HTML, CSS, JavaScript and React with great online library functionality such as browsing books and adding items to your cart.
